Mundo: It's not just a bike, it's a lifestyle.

Where will you go? What will you bring? Your imagination and your leg's ability to meet the challenge are your only limitations. This is life with Yuba's original cargo bike: the Mundo. Take whatever you want, wherever you want.

[12345](#)

Rock solid, nimble, and full of possibility; it's a workhorse through and through. Make it your family's second car, your company's delivery "van", your school bus, or your errand-runner. Ditch the car all together? No matter its role in your life, the Mundo will transform the way you move—guaranteed.

What makes the Mundo different from other cargo bikes? Glad you asked! It's simply more fun to ride. Its stiff frame is the ultimate in maneuverability and control, meaning you can manage heavier loads and relax while riding with your kids.

The features and performance—the incredible ride and extensive line of add-ons—offered by the Mundo are unmatched by any other utility bike for the price—yes, we're biased, but it's true. If there's joy in practicality, the Mundo will make you ecstatic.

Ride like the wind. We'll see you out there.

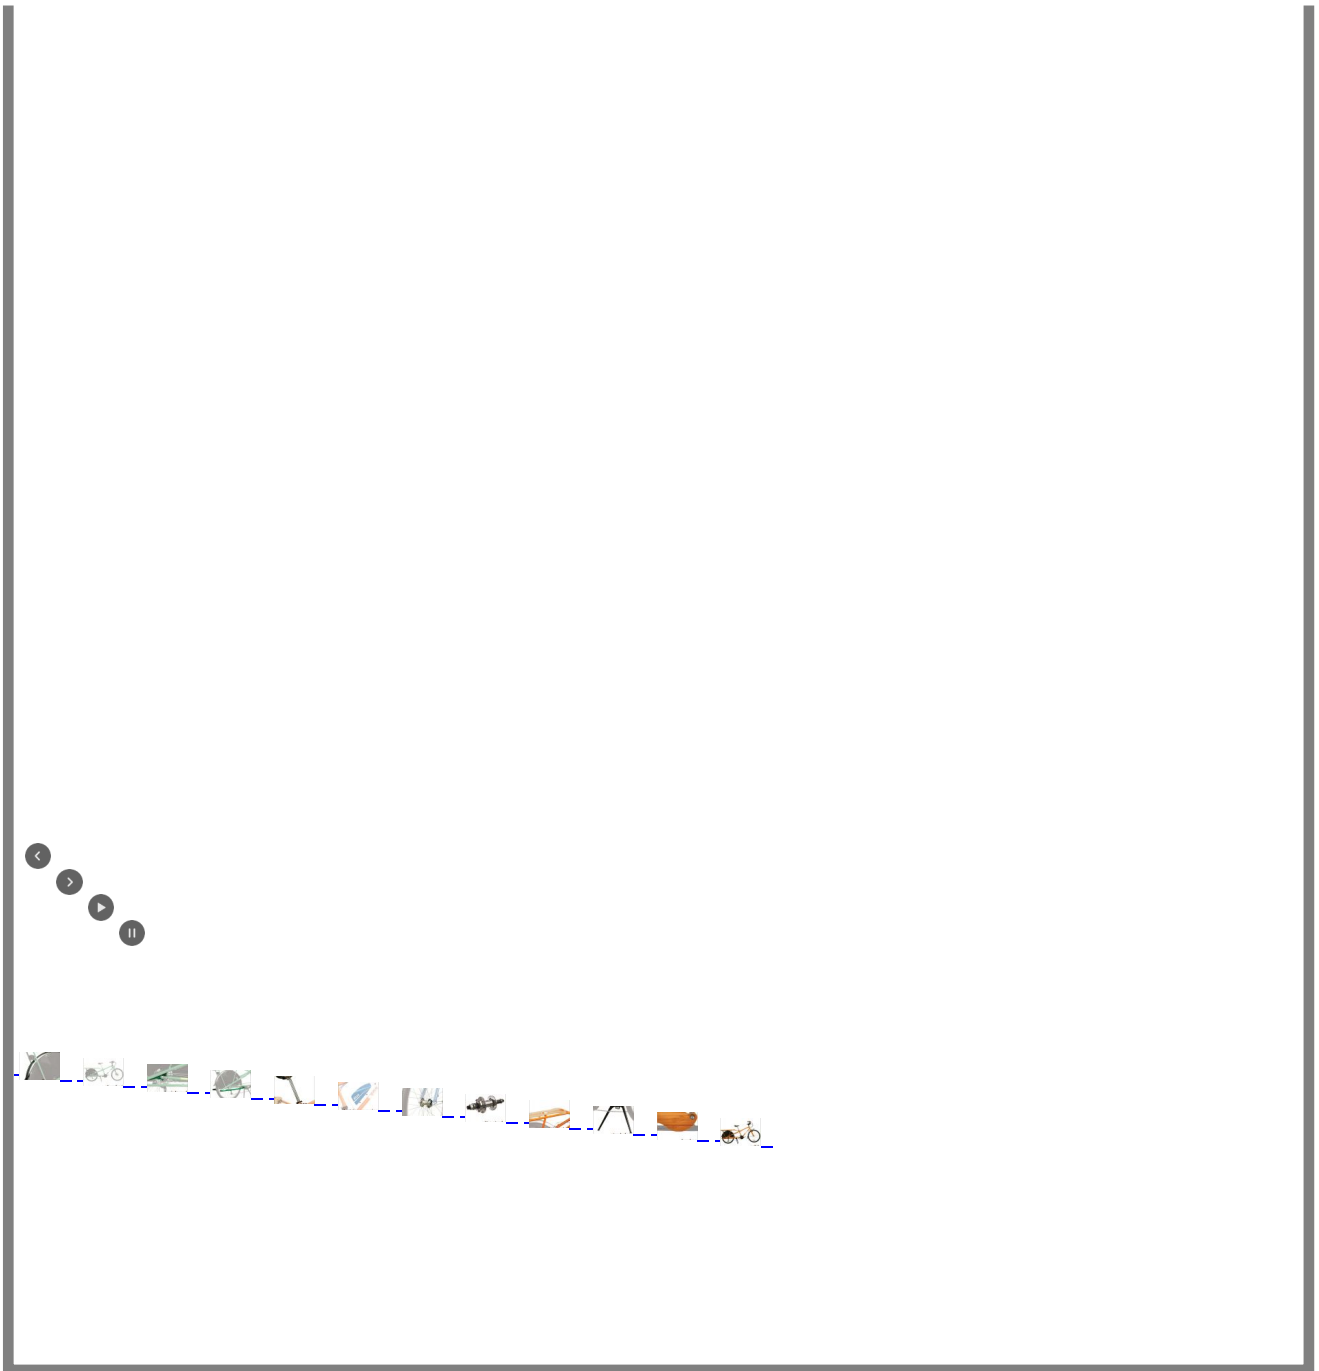

(All Mundos are delivered with Wheelskirts installed on fenders.)

Ride Characteristics

- Superbly Stiff Frame
- Nimble Handling
- Mega Load Capacity
- Multiple Passenger Capacity
- Most Popular Cargo Bike in North America for the last 5 years

Reviews

"Europe says the Yuba Mundo is #1!"
- *Danish Cycling Federation, May 2014*

"The Mundo is exceptionally versatile and a great choice for a cargo bike if you're looking to pick up the kids from daycare, drop them off at swimming, pick up groceries and carry their two wheels when they're too tired to keep riding. This is the perfect bicycle for a family with two kids! It's not too heavy but also feels extremely sturdy."
- *Momentum Magazine 7/22/12*

"...half the fun of this bike is seeing what crazy things you can strap down and ride with."
- *Pedal Press, Fall 2012*

"The best thing about the bike so far is that my son has begged each morning to go for a ride on it instead of begging to play with the iPad."
- *Jackie G., Cedar City, UT*
